1. The scientific director of a private company has said Wednesday that researches had begun cloning
2. human using the DNA of a dead infant. An embryo is expected to be implanted into a surrogate mother
3. within the two weeks, said Brigitte Boisselier of CLONAIID, a Quebec-based company founded specifically
4. to clone humans. “We have already begun working with human cells and we should be ready by the
5. mid-April,” Boisselier told USA TODAY. Boisselier testified before Congress at Wednesday at a hearing
6. on human cloning. The House Subcommittee on Oversight and Investigations called the hearing after
7. experiments. Boisselier did not tell the committee that the cloning was under way, and it is unclear
8. whether her company cloning team, to which she says consists of three researches and a physician,
9. actually has the ability to clone a human. “This revelation only adds up a sense of urgency to our mission.
10. Congress must act now to prevent human cloning”, said Ken Johnson, spokesman for the House Energy
11. and Commerce Committee, which oversees the subcommittee. “Some of the groups are serious
12. enough and scary enough to warrant our immediate attention.” The committee will push a bill to ban back
13. human cloning within weeks. Boisselier is a member of the Raelian Movement, which announced last
14. September that it was intended to use cloning techniques to “resurrect” the child of a couple for \$500,000.
